UPDATED: 5:33 pm CDT October 29, 2009

A company that's only been in the area for two years is already expanding and doubling its workforce.

Simplex, which makes mail-order diabetes supplies, is taking applications now. It's located in a building on Westwood Place in Brentwood.

Simplex has 300 workers now but plans to hire 300 more when it moves into a larger building in Cool Springs.

The available positions range from customer service and patient care to sales and medical billing.

Salaries will range from \$30,000 to \$75,000.

The company plans to begin hiring by the end of the year.
